### **Environmental, Wildlife and Plant Guidelines**

Areas surrounding campsite can be a habitat for wildlife roaming throughout Sagamihara Family Housing Area. Here are some policies and tips to ensure that you safely enjoy your stay and, at the same time, mitigate any disturbance towards wildlife. Please note that endangered wildlife and plants are governed and protected under the Japan Environmental Governing Standards (JEGS), the Department of Defense Integrated Natural Resources Management Plans (INRMP), and local environmental and plant and wildlife policies and management.

### Wildlife/Foraging Rules and Regulations

- No foraging of any kind authorized around camp areas
- Stay away from wildlife.
- Do not feed wildlife and fish
- Do not corner or approach wildlife as it could lead to abnormal or potentially dangerous behaviors
- To prevent attracting wildlife, please secure food and as well as your belongings. Keep campsite clean
