Takao Trick Art Museum

Home of wondrous illusions at the foot of Mount Takao...Welcome to the world of trick art! The history of trick art is old, and dates back to about 2,000 years ago. It had become an established art form by the time of the Renaissance era. The theme of the concept at the Takao Trick Art Museum is essentially the same as the illusionism of that era, namely creating the optical illusion that depicted objects really exist, instead of being just two-dimensional paintings.
