**SAFETY ADVISORY  
NOTICE**

1. The Bowling Center has bowling balls that are appropriate for most children's and adult's weight, finger size and hands. Please do not allow children to use adult balls or balls that are too heavy; nor should adults use balls that are too light. Some children are too small or immature to bowl; therefore bumpers are recommended.

2. Children are naturally curious about the ball returns. Returns can entrap fingers and hands. **CAUTION CHILDREN NOT TO TOUCH THE RETURN OR MOVING PARTS.** Call an attendant if a ball needs to be retrieved.

3. The lanes are oiled and slippery beyond the foul line. **DO NOT CROSS THE FOUL LINE.** Call for assistance if oil gets on the approach area.

4. Children often carry balls with both hands and do not see where they are going. Ask them not to pick up a ball before they are ready to bowl and if they drop the ball they must be careful to let it stop bouncing before trying to retrieve it.

5. If there is a spill, let the attendant know. If not properly cleaned, spills can be hazardous to your group and others after you leave.

6. You should accompany children ages two through six to the restroom.

7. Make sure bowling shoelaces are properly tied and loose ends are tucked into shoes.

8. Do not allow children to run. Keep your eyes on them at all times.

9. Even though more than one child will bowl on the same lane, only one should approach at a time. This helps children avoid being hit. This is also a rule for adults.

The enjoyment and safety of your family are important to the center and staff. You need to do your part to help make the party a success.
